The policy provides coverage while in attendance at school during the hours and on the days that school is in session. Includes traveling directly and without interruption to or from the Insured's residence and the school for regular school session, for such travel time as is required, but not to exceed one hour after school is dismissed, or if additional travel time on the school bus is required, coverage here under shall extend for such additional travel time as might be necessary. Participation in or attending an activity exclusively organized, sponsored and solely supervised by the school and while under the supervision of school employees. Travel is limited to school supervised transportation.

An optional 24 hour accident coverage plan and/or an extended dental protection plan can be purchased directly through Lefebvre Insurance.
